SUMMER IN PLEASANT VALLEY. As a refuge from the minmer heat, and as a quiet resting place, there is no spot I prefer to Pleasant Valley. I The many sea coast and in-🔪 land Summer resorts, so popular in our day, are well suited for all who love crowds, and gayety, and conventionality. He who seeks quiet, who oves at times to be alone, who wants for a while to be unhampered by the demands of fashlon, will find all this in

Pleasant Valley. Its attractions are such as nature has to offer. Beyond these there are none. But these are allsufficient. A mid summer morning in Piensant Valley is perfection. The air is re-freshingly cool. Every breath you inspite invigorates. The light of the sun as at the present doy.

is mellowed by the surrounding forests. matin songs. In sheer gladness you way in this darkness, " in such delightful morning hours, with alpen-stock in hand, we stroll along the shady bonks of Marsh Creek, or climb to the top of the adjoining smith's shop,"

nountain. The flowers that charmed "I fear," returned Mr. Bundelph, that we have lost the road entirely, us in the months of Spring have done heir work and passed away, but others In fact, I am very positive of it. We just us beautiful have come to take their luce. The finest of them all is the Lobella Cardinalis. Its brilliant red again to resume our journey." flowers challenge your attention. How While Mr. Randolph was speaking, you would prize this woodland beauty the wind fulled for a few moments, and sould you have it growing in such perthere came a cry that caused John Glevfection in your flower garden! Another to start with terror. Mr. Randolph, who crouched beneath a tree, started to his feet and laid his hand on his pistol. Again the cry broke forth, and Mr. Randolph commanded John to search in the saddle bags for a box of matches.

r beauty is the little Pipsissiwa, or Prince's Pine, with its evergreen leaves, and its pink-tinted, cream-colored, waxlike flowers, very pretty and very fragiant. Widely different is a strangecoking little plant known as the Indian sald Glover, his teeth chaltering with Pipe. It is all flower, having not a single leaf. The flowers grow in small fright. groups, crowding each other as if for protection. They are yellowish white practiced ear knew the cry of bousts too in all their parts, and are always found well to be decelved, " tis a human voice, near the roots, from which they draw and the cry is one of distress,"

their sustemmes. Crouching close to lighted a pocket lantern and was peer-DHYSTEIAN AND SURGION, MIDDLE, TOWN, Addingson, 15, 20, 0 their austenance. General Grant's pair of Arabian stalons, presented by the Sultan of Turkey. arrived here two days ago. I went yesternay with Milton Sayler to have a ook at them. I confess I was disappointed. The horses were said to have been selected as the best out of a stud of seven hundred belonging to the Sulan, and I expected to see something remarkable. Instead I saw a pair of sme gray horses, which at first led me to believe that we were being guyed by some practical joker, but closer inspetion convinced my companion that the horses were very line. They are bet ar below the height of the ordinar orse, but they are thinner and longer han our ordinary ponies, and really ook frail. They do not seem to have A comparison between the expendit the chest and leg muscles of our race ern, and have the drooping eyelids and

GRANT'S NEW MORSES.

trenchment which they made only be. an horses are lacking in these originals. gan to appear in the appropriations for The merit in these horses is said to be in their great endurance and their economy in food and drink. In four generstock and that all our best houses trace there genealogy back to the Arabs. Mr. Sayler told me that he knew Rarey the greatest of horse breakers and one country. He said that Rarey took 'Cruiser," the most vicious and unmanpropriations of every kind are included abroad, and even went to Egypt with him. While in Egypt Rarey put "Cruisr" against the Arabian horses on the desert sands and he was never able to and an equal to him either in speed or endurance. Grant's two Arabian stallions may be marvels in horseflesh, but to an unpractised eye they do not show it. General Ned Beale, our late minister to Austria, himself one of the best judges of horses in the country, has taken the stallions to his fine farm in

Maryland, near this city, General Garnt having consigned them to him as the --- E025,513,135,14 safest custodian of them. What Gen. nople to this city would cost more than they are worth. They have never had a harness on them, but both have been broken to saidle. Of cours the horses, one six and the other five years old, will have to be broken over again, for the colored groom told me that one of them This reduction averages twenty-five walked only on his hind legs, and yet and a half millions a year, and it is fully seemed very anxious to get away. If one hundred and twenty five millions a these are good horses, they are the only year less than the estimates of the degood ones General Grant ever owned. While very fond of horses, and frequent. ly preferring their company to that of gentlemen, yet General Grant is not a of the Republicans. But it is by no the good points of a horse than a conmeans as good as it should be, or as it gressman can tell when the two houses will adjourn. And he does not seem to have any appreciation of the proprieties in horses. For eight years while he was president he drove his grand old war honesty the rule of employment. It is ed him from Vicksburg to Appomattox, capable of demonstration that the civil to a big landau in this city, and little sympathy they got and little reward for

all their service in the rebellion,— Washington Cor. Philadelphia Times. BANGIMED LEPERS. GET PYSRURG, PAG

The Farm and Ionse. AGRICULTURAL NOTES. BY THE EDITOR.

beautiful hay, and not a little of it. - Wheat-cutting commenced on Tuesday. The heads of the grain are gen- into pails or open vessels of water, and erally large and plump, and there is every prespect of a good yield. Carolina brought \$1.50 per bushel in ommendations. Powdered quick-line

Ballimore last week. -In the full of 1877, Juo, Sigle, of Ugper Leacock township, Lancaster county, sowed 30 acres of wheat on his farm, which, after being threshed, sidered to be the best way to get rid of yielded 1,3% tushels of clean wheal, or 132 bushels to the acre.

- Faily potatoes promise well, - Two cows, belonging to a furmer near Columbia, ale over built a gallon of paris green, but they still live, then horses stolen in a night,

since, that had two fully developed heads, two mouths, four nostrils, four eyes and four ears. - A new and fatal disease has broken:

out among the cattle in Huntingdon crops in Washington county are excel- cornfleids. It is a boole from 1 to a

beginning of the sixteenth century.

— In most of the Southeron States of there is any way to rid themselves of SUITS FROM \$3.50 UPWARDS. an increase of corn is expected, and its unwelcome visit. South Carolina will probably give good returns of rice, but the prospect in

LARGE FARMING A PRECARIOUS BUSI. Detween farming in England and farming in America. In England, one acre An Francisco correspondent of a Philandelphia paper, as evidence that farm-can farmer must, consequently, chilandelphia paper, as evidence that farm-can farmer must, consequently, chilandelphia paper, as evidence that farming on a gigantic scale is profitable vato two and a halt acres in order to neither to the country nor to the farm- produce the same quantity of wheat as er. He says: "The largest wheat producer in California, on in the world, is Dr. H. J. Glenn. He was formerly from Mooroe county, Missouri. He is not only compete with the English not only compete with the English of great enterings and energy. a man of great enterprise and energy, farmer, but even boat him in his own It is ranche lies in Colusa county, and market? The answer which first me-Land. He has this year 45,000 acres in mous difference of rent in England and wheat, which, at a low calculation, will America, but this difference is, as the produce 900,000 bushels. His wheat paper shows, nearly, it not altogother, will sell for 85 conts per bushel, or \$765. obliterated by the cost of transportaooo. Dr. Glenn has been farming ten tion from the Western Holds to the Fears, and one would suppose he ought English market. The real advantage to have a handsome sum to his credit in which the American farmer has over the bank; but what with a fallure of the English hes in the chonpness of the crops-which occurs two years in every cultivation. While the American soft hyr-and the enormous interest he pays needs little, if any manure at all in oron his loans, he is said to own a round million of deltars. That year his credit was bad, as he had no crop. Now, with the said and the crop. Now, with the said and the crop. Now, with the said and the crop. The said and the crop is a bad, as he had no crop. Now, with the said and the crop is a bad, as he had no crop. Now, with the said and the crop is a said to come a said the crop is a said the crop is a said to come a said the crop is a said to come a said the crop is a said to come a said the crop is a said to come a said the crop is a said the crop is a said to come a said the crop is a said to come a said the crop is a sai his splendid crop in prospect, he will manure to the sell every year, if he probably get out. The Balrimples of simply expects to have an average yield. St. Paul, who, ten years ago, were the and a similar cheapacas rouppears nour-St. Paul, who, ten years ago, were one and a summar encoparsa compleme measurest farmers of wheat in Minnesota. By at every point of the cultivation, exlargest larmers of wheat in alimosom, making as much as 400,000 bushels in a single year, wont to the wall. Another in the sottlements along Red Ition in Northern Munesota a plow may be run. whose land lies on the border of Colusa and Butte counties. He is also from than fifty adjes in a straight line with. Montoe country, Miscouri, and has an out encountering a stone, a tree, or a suppretending little estate of 15,000 hill, a feature to which England does with acres, 13,000 of which are in wheat, not offer the faintest approach. which he thinks will average this year 30 bashels, or 390,000 bushels. He also is hard pressed, and I am told is paying of the United States Navy, states in the 9 per cent, on a couple of hundred thou- Medical Record that he has found a

The truth is that from the request that ure of crops in California and the waste that attends on large operations of that with unvarying success in at least forty kind, farming on a gigantic scale in this portion of the Paculo const must olive oil, cosmeline or glycerine, the this portion of the racine const must be considered a failure. North of this, in Oregon and Washington Territorics, bromine to the onnee of oil, and tubs there is no failure of the harvest; furm- the mixture gently on the affected part ing operations are carried on on a smal-three or four times a day. The bromine ler scale, and consequently the farmers, is so volatile that the solution should be

USE OF COMMERCIAL FERTILIZERS

correspondent, D. S. B., at the close of persisted in, and the patient is entirely his article upon absorbents for liquid cuted. manures, page 330, says that 'just now soris. He also recommends clover sod for fertilizing the soil. Suppose he could not got the sol. There were sol's quart of peas for about five minutes and in this county which had become so exbansted that they would not produce for one minute (blanching is only bollcloser until commercial fertilezers were log or sleeping in bolling waterl; put used upon them; and some of them are owned by the best farmers, who did not sell straw or coarse grain, but fed stock.

The for about one minute, and then add a self-straw or coarse grain, but fed stock.

#### or even below evet. J. M. Penn Yan, DISTRUCTION OF INSECTS.

About this time of the year trait and 300 tons of guano. In 1878 there growers we often troubled with cuttain were about 500 men employed; the best orchardists. There is the slug on the products were 231,100 gallons of off the pear tree, the tent-caterpilar on the and the rose-bag on the cherry, is worth from \$10 to \$16 per ton in bulk and of which will skeletomer the tree in and when composted makes a valuable and of which will skeletomes the tree in and when composted makes a valuable short order. For years past there have short order. For years past there have short orders, and when composted makes a valuable short order. For years past there have short orders, and when composted makes a valuable short order. For years past there have short orders, and when composted makes a valuable short order. For years past there have short orders, and when composted makes a valuable manue. This is probably a mere beginning, and the industry may be expanded to such discussions that it shall be come of the first importance to the first importance with first importance to the first importance with first importance and the industry product with first importance in the first importanc
